

PLANETS 3rd Workshop

Venice, June 19, 2009
Venue: Fondazione Eni Enrico Mattei
Palazzo Querini Stampalia
Campo S.Maria Formosa

Final Agenda

Thursday, June 18, 2009

18.30 *Social Event (in conjunction with IEW): Venice Boat Trip and Dinner on Torcello Island*

Friday, June 19, 2009 – 8.50-14.00

- 8.50 Welcome**
Massimo Tavoni, FEEM
Bob **Van der Zwaan**, ECN
- 9.00-9.40 WP5 on policy scenarios: results and next steps**
Richard **Loulou**, KANLO
- 9.40-10.20 Results of WP-3: Technology assessments I**
Dalia **Streimikiene**, LEI
- 10.20-11.00 Results of WP-4: Technology assessments II**
Filip **Johnsson**, CHALMERS
- 11.00-11.15 *Coffee Break*
- 11.15-13.00 WP-6: Stochastic Scenarios**
Alain **Haurie**, ORDECSYS
- 11.15 **DEMETER** – Reyer **Gerlagh**
11.25 **GEMINI_E3** – Marc **Vielle**
11.35 **PEM/TEAMS** – Markus **Blesl**
11.45 **TIAM** – Richard **Loulou**
11.55 **TIMES-ECN** – Ilka **Keppo**
12.05 **WITCH** – Massimo **Tavoni**
12.15 **General Discussion**
- 13.00-14.00 *Lunch*

Campo S. Maria Formosa

Final Agenda

Friday, June 19, 2009 – 14.00-16.00

- 14.00-14.30** **WP-7: EU policy recommendations**
Bob Van der Zwaan, ECN
- 14.30-15.30** **Discussion over dissemination, reporting and publications
& General Assembly**
- 15.30-16.0** **Next steps and workshop schedule**

PLANETS 3rd Workshop

Venice, June 19, 2009
Venue: Fondazione Eni Enrico Mattei
Palazzo Querini Stampalia
Campo S.Maria Formosa

Final Agenda

Expected outcomes

- Discuss the next steps –in terms of improvements, new models runs- of WP5. Determine main policy implications and propose a strategy for dissemination of results before and after Copenhagen. Different models could be used for different purposes, even outside the scenario exercise. Need to come up with policy recommendations for the EU.
- Discuss strength and weaknesses of technology assessments and their potential use both as stand-alone and in conjunction with models.
- Define the strategy for the stochastic runs. To what extent will models be able to “harmonize” or pursue similar exercises? Being able to deliver clear cut policy messages seems especially hard when dealing with uncertainty.
- Generally speaking: how can we best use all the material we’re putting together?

Logistics

Dinner on Thursday 18th

The boat tour and dinner will leave from San Giorgio Island at 630pm. For those partners that are not attending the IEW, these are the instructions on how to get to San Giorgio:

The water bus to use is line 2. Line 2 leaves from Ferrovia (railway station), Piazzale Roma (Car and Bus terminal), Zattere and San Zaccaria with a frequency of 10 minutes.

From the St. Mark’s area, the line 2 water bus stop, San Zaccaria, can be found on the Riva degli Schiavoni - the promenade located to the left of St. Mark’s Square (facing the waterfront). From St. Mark’s Square turn left and proceed along the promenade crossing over two bridges. After the second bridge you will see two landing stages (one before the statue of Vittorio Emanuele, and one after). Line 2 water bus leaves for the San Giorgio Island (only one stop) with a journey time of approximately 3 minutes from the first landing stage. One stop ticket costs € 2,00. Boats leave every ten minutes “on the nine”, so the 609 and 619 are the last ones that will get you there before the 630 departure time.

Friday 19th meeting.

The workshop is held at FEEM (current) premises, in Palazzo Querini Stampalia. This link contains directions and a map.
