

The European Commission's SECURE (Security of Energy Considering its Uncertainty, Risk and Economic implications) Project

Regional Stakeholders Meeting

Agenda

Moscow, 2 July 2010

Venue: President Hall of the Presidium of the Russian Academy of Sciences
Leninskiy prospect 32a, Moscow, 119991; Tel. +7 906 095 03 38

09:00 Registration and coffee

09:30- 10:00 Welcome and introduction

The SECURE project, started in 2008, aims at building a comprehensive framework for measuring energy security of supply in the EU. Assessing the risks related to geopolitics, price formation and the economic and technical design of energy markets inside and outside the EU, the project focuses on both qualitative and quantitative analyses, adopting a global as well as a sectoral approach. The tools, the models and the policy recommendations provided by this project will serve policy-makers to formulate energy security policies taking into account the related costs, benefits and risks.

Welcome by Sergey Michailov, Energy Ministry of the RF, Head of the State Energy Policy and Energy Efficiency Department

Welcome by Alexey Makarov, ERI RAS, Director

Welcome by Michael Webb, representative of the European Commission

Introduction to the SECURE project by Manfred Hafner, FEEM

10:00 – 11:45 SESSION I: “Long term energy scenarios in the context of energy security”

SECURE long-term energy scenarios for Europe

Patrick Criqui, University of Grenoble/LEPI-CNRS

Energy Strategy of the Russian Federation until 2030: methodology, expected results, system of realization

Jurij Baron, Energy Ministry of the RF, Deputy Director of the Energy Policy and Energy efficiency Department

Comparison of European energy scenarios: view of energy producers

Vladimir Feigin, Principal Director, Head of Energy Department, Institute of Energy and Finance

Remarks by Discussants, followed by open discussion

11:45-12:00 Coffee break

12:00- 14:00 SESSION II – “Potential Threats for EU Oil and Gas Security and Security of demand for Russian hydrocarbon exports to EU”

Assessment of potential threats for EU gas security

Presentation by Stefan Schaar Kruse, RAMBOLL

Russian Gas and Energy Security of Gas Markets

Vlada Rusakova, Head of the Strategy Development Department of Gazprom

Problems of gas demand security on Russian domestic market

Sergey Komlev, Head of Contract Structuring and Price Formation Directorate of Analysis and Optimization Department of Gazprom Export

Threats to the EU Security of Oil Supplies – A Critical Analysis

Giacomo Luciani, Gulf Research Center Foundation

Future Russian oil and oil products exports to EU

Representative of Russian oil company Rosneft

Remarks by Discussants, followed by open discussion

14:00-15:00 LUNCH

15:00-16:30 SESSION III – “Energy efficiency and renewables – new possibilities for EU-Russian cooperation”

Energy efficiency and electricity demand response in Europe to improve security of supply

Andrea Bigano, FEEM

New Russian strategy in energy efficiency and possibilities for cooperation with EU

Alexandr Savin, Deputy Director of Russian Energy Agency

Environmental targets and possible changes in the Russian energy

Fedor Veselov, Head of the energy markets modeling and regulation laboratory; Vladimir Malakhov, Head of Laboratory for Studies in Energy Economy Relationships Director, ERI RAS

The role of renewables in the future European energy mix

Christian Panzer, Energy Economics Group – Vienna University of Technology

Remarks by Discussants, followed by open discussion

16:30-16:45 Coffee break

16:45-17:45 Round table “Long-term priorities of EU-Russian energy cooperation to provide energy security”

Open discussion of the road map of EU-Russian cooperation in all energy sectors in the long-term until 2050 with the emphasis on energy security.

17:45-18:00 CONCLUSIONS

Conclusions and wrap-up by Manfred Hafner, FEEM, Juriy Baron, Energy Ministry of the RF and Tatiana Mitrova, ERI RAS

End of the meeting
